

Workshop for HR Professionals and Hiring Managers

Insider Tips for Interviewers –

Assessing 12 Key Dimensions that Predict Success on the Job

We promise to be entertaining, even iconoclastic.

With over 30 years of experience interviewing more than 12,000 applicants, our firm will share the trade secrets we originally identified to train our own staff to interpret the psychology of the interview.

This program will help you:

- Select the best possible candidates from a talented pool of applicants.
- Reduce monetary costs associated with hiring the wrong person.
- Transform standard interview questions to probes that offer revealing insights.
- Anticipate possible red flags by interpreting what candidates reveal versus what they conceal.
- Blast through “decoy dating” behavior to evaluate how an applicant will likely perform in the field.
- Examine the reliability and validity of selection tests/tools/methods.
- Develop a network of other human resource professionals and managers in Chicagoland.

A copy of Dr. Stephen Laser’s new book *Corporate Interviewing Guide* will be provided to all participants as part of the course materials.

Presented by Stephen A. Laser Associates at:
